Cornell Representative

Patricia Clayborne

Dear CCE Supporter,

This year is the 100th anniversary of Cornell Cooperative Extension of Chenango County. In 1915 E.P. Smith was hired as our first Ag Extension Agent. Adelaide Barts came on board in 1917 to teach home economics and nutrition. In 1920, Harry Case was hired to run the 4-H youth program. That was the start of a remarkable century of service.

Over the past hundred years, Cooperative Extension programs for agriculture, home economics, and 4-Youth have helped the families and communities of Chenango County adjust to incredible changes: from kerosene to electric light, from horses to tractors, from fountain pens to computers, from hand milking, to robotic milkers, from woodstoves to mirowave ovens. Cooperative Extension did not invent those things, but it did help families and communities benefit from the changes that came so rapidly.

Cooperative Extension of Chenango County's success has come because has worked as part of a team that included farmers and families, business and government coming together to learn from each other. That teamwork approach made the most of combining that local expertise with University research.

We want to thank you for your past support and for being part of that team. We hope you will take a look at our annual report to see what our volunteers, 4-Hers and staff have accomplished in our most recent year of service

Sincerely,

Ken Smith

CCE Chenango Executive Director

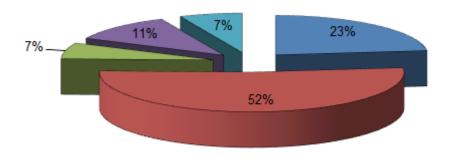

Estimated Revenue and Support Received by CCE Chenango County during 2015

State and Federal **SUPPORT** includes the estimated value of services and educational access provided by Cornell, USDA, and NYS sponsored grants. Most of this is related to training and access to the research that is the basis of the programs we conduct. Theses memorandum of agreement and support provided by local government are made available because of Chenango County's contribution to our funding.

REVENUE is the actual cash provided to CCE during the fiscal year 2015, of which Chenango County provides approximately overall revenue and support of 35%.

OTHER reflects income generated through, contributions, special projects and rental income.

Total of Revenue and Support for 2015

	TOTAL	SUPPORT	REVENUE
COUNTY	\$268,500.00	\$0.00	\$268,500.00
STATE	\$602,852.36	\$324,380.31	\$278,472.05
FEDERAL	\$75,613.34	\$63,158.00	\$12,455.34
OTHER	\$130,147.09	\$0.00	\$130,147.09
GRANT	\$77,313.34	\$0.00	\$77,313.34
TOTAL	\$1,154,426.13	\$387,538.31	\$766,887.82

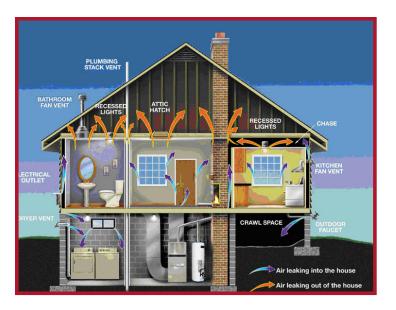

VITA

(Volunteer Income Tax Assistance Program)

In 2015 CCE Chenango along with the Chenango and Madison CASH Coalition assisted 882 people with filing their taxes. The CASH (Creating Assets, Savings, and Hope) Coalition of Chenango and Madison Counties uses volunteers to participate in the Volunteer Income Tax Assistance Program (VITA). Each volunteer is an IRS Trained and certified tax preparer and works to assist families who earned less than \$50,000 this tax year.

Many people will qualify for this free program for the first time this year due to economic changes in their income or in their marital or parental status. The CASH Coalition estimates one out of five eligible workers currently do not claim their Earned Income Tax Credit. In 2015 hundreds of families and individuals took advantage of this program and had their income taxes prepared by the IRS-certified volunteers. In Chenango and Madison Counties \$1.7 million was returned in refund and tax credits to tax payers this year. Of the \$1.7 million \$558,872 (or 33%) came from the Earned Income Tax Credit (EITC). Chenango County offers daytime, evening and weekend appointments on Thursdays and Saturdays from January to April.

EmPower New York

Chenango County worked with The Leading Edge and local libraries to provide two-hour workshops to those interested in saving money and energy. In 2015 three workshops were given. The average class size was five participants. Participants learned cost effective ways to winterize their home and received three free compact florescent light bulbs for attending. The remaining classes for the contract will be given in the months of December and January to fullfill the contract of six workshops.

The EmPower New York workshops are sponsored by the New York State Energy Research and Development Authority (NYSERDA) and developed by Cornell University Cooperative Extension and NYSERDA.

4-H Public Presentations

The 2015 Public Presentations program was a tremendous success.

Thirty nine youth participated in the county wide training and competition.

10 Youth were selected to compete in the Region 4 Competition at Chenango Forks

4 Youth were selected to compete in the State Public Presentation Competition at Cornell University

2 Youth were selected to compete in the 2015 Eastern National Horse Communication Competition in Louisville, Kentucky

Youth Responses to Long Term Benefits of Public Presentations*

- o They knew how to prepare a public presentation.
- o They would feel comfortable helping younger or less experienced people with their public presentations.
- o They would feel comfortable speaking to people of all ages.
- o They would feel comfortable speaking about something they believe is right, even if friends made fun of them.
- o They would feel comfortable talking to their evaluators about their presentations.
- o They had better speaking skills than others their age.

Agriculture

CCE celebrated its 100 year anniversary in Chenango County in 2015. Agriculture has been and continues to be the foundation of Chenango County's economy and of our quality of life. Healthy and productive farms in our rolling hills provide beautiful views that define Chenango County's landscape. Agriculture provides the economic vitality that keeps our villages and towns vigorous. Advancing the agricultural industry is central to the mission of Cornell Cooperative Extension of Chenango County. Cornell Cooperative Extension aims to keep our existing farms healthy and to guide and assist new and beginning farmers in becoming established in our county. Our major agricultural initiatives include: dairy and field crops support, agricultural plastics, farm consulting, marketing support, and livestock grazing.

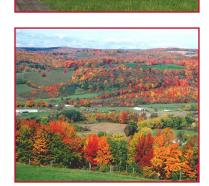

Major Accomplishments in 2015:

- Dairy Day held in June at the Chenango County Fairgrounds
- Agricultural exhibits for the Loomis Barn at the Chenango County Historical Society
- Celebration of the 100 year anniversary of Cornell Cooperative Extension in Chenango County
- Continuation of the Recycling Agricultural Plastics Program (RAPP) and the building of an agriculture plastic building at the North Norwich Transfer Center
- Program information and assistance to farmers about grants for dairy farm expansion and facilities upgrades
- Extensive one-on-one information, education, and outreach for new and beginning farmers
- Collaboration in several initiatives with the Cornell Small Farms
 Program of Cornell University: Beginning Farmer support, Small
 Farm Quarterly Publication, and Wholesale Marketing Curriculum
 Development
- Collaboration with Commerce Chenango promoting low cost Rural Initiative and Dairy Revolving Loan funds
- Collaboration with Commerce Chenango in printing and distributing a map of agricultural producers and products in the county
- Collaboration and support for agricultural organizations in the county including the Agriculture Development Council, Ag and Farmland Protection Committee, Dairy Day, Farm Bureau, and the Chenango County Fair
- Marketing support for livestock and poultry producers
- The production of YouTube grass fed milk dairy videos

Horticulture

Horticulture was good and growing in Chenango County as the 2015 growing season rolled around. The Horticulture Program, in addition to coordinating the valuable Master Gardener Volunteer program, served the residents of Chenango County in 2015 through:

- Publications: informational press releases, articles in the CCE Extension Express newsletter and the two page Horticulture HUB e-newsletter extend our horticultural educational efforts to thousands in the county.
- Classes: the horticulture program hosted, promoted and instructed classes in topics such as Botany, Seed Collecting, Mushroom Growing and Vegetable Pests. Each year topics are offered based on input from county residents.
- Direct Service in Your Community: site visits for plant identification and site recommendations, answering inquiries about starting new farms, hops farms, grants and tax exemptions, facilitating soil tests, promoting farmers' markets in Chenango County and helping markets with state aid programs.

Natural Resource

The primary focus of natural resource programming in 2015 was the development of You Tube videos to raise awareness of the quality river recreation resources in Chenango County. Pilot videos were produced for the Otselic, Chenango, and Susquehanna rivers featuring kayaking, canoeing, and fishing.

In addition to the river videos the association provided consultation on nuisance wildlife, such as beavers and bats, as well as on woodlot management. The Game of Logging Level I and Level II were offered in partnership with NYCAMH in different parts of the county and well recieved. Maple syrup production was an area of programming this year as we teamed up with the Chenango Area Maple Producers for meetings and programs totaling about 50 people.

GRAZING AND AG ECONOMIC DEVELOPMENT

A diverse and interesting array of activities continually occurs in the grazing and ag economic development arena at CCE Chenango. This year in partnership with the Agricultural Development Council we have continued our video marketing efforts by producing a YouTube film on grass fed milk production. The grass fed only milk program is becoming ever more popular among consumers and offers yet another viable economic option for organic grazing dairies. Our previous films on dairy grazing, dairy cattle comfort, and small dairy farms continue to get viewed around the world highlighting agriculture in Chenango County.

We have been successfully working with and assisting a group of young Amish farmers from Ohio in getting established on dairy farms in the town of Guilford. Five families have purchased farms, with three currently milking cows and with two scheduled to begin production in 2016. These farms and families will provide a tremendous boost to the agricultural economy in our county.

We were active again at the New York Farm Show in Syracuse this past winter, where CCE Chenango coordinated a group of speakers from within the Cooperative Extension system of New York who gave presentations on a variety of topics of interest to show attendees. CCE Chenango was a participant in the Annual Chenango County Dairy Day this past June, in collaboration with several agencies, and which highlights the importance of dairying in the county.

CCE encourages livestock producers to market their products by encouraging them to join an organization such as the Adirondack Grazers Cooperative and to be listed in our local meat producers guide. A beef calf pooling project has been initiated by the Cornell University Beef program throughout the state, which encourages producers to work together in grading and marketing uniform groups of animals for purchase by buyers.

CCE continually provides information and assistance on grazing, farm management, and loan sources to new and beginning farmers. We also encourage individuals to avail themselves of the resources from the Cornell University Small Farms Program and the Northeast Beginning Farmers Project.

	Memorial Day							

In our third year of participation, Chenango County 4-H once again offered the NYS Library/4-H Summer Reading Partnership Program to youth in Chenango County. This program, funded by a grant from the Otis Thompson Foundation, was coordinated by 4-H Summer Intern Susan Graham, who educated 416 youth and 59 adults about heroes having a role in STEM (science, technology, engineering and mathematics). Books and activity topics included:

- Olivia's Birds, Saving the Gulf by Olivia Bouler: Activities about birds and oil spill cleanup
- The Camping Trip That Changed America by Barb Rosenstock: Activities about trees and conservation
- Twenty One Elephants and Still Standing by April Jones-Prince: Activities about bridge building
- Wee and the Wright Brothers by Timothy Gaffney: Activities about air and flight

As a result of this program, programs for youth ages 5-12 were held at Otselic Valley Central School, Otselic Fishing Heritage Day, Dairy Day, Safe Summer Fun Day, Sherburne Public Library, The Place, Guernsey Memorial Library, Farm Days at the Afton Driving Park, Smyrna Public Library, New Berlin Library, and the United Methodist Church (Norwich). A total of 21 sessions for 54.2 direct educational hours were offered as part of this program.

Book reading led into discussion of the behind-the-story science and hands-on activities to illustrate the main learning points of each book. Youth were able to make and clean up their own oil spill, design catapult airplanes, construct bird feeders and bird ID books, as well as test their engineering skills by testing their paper bridges.

Master Gardener Volunteers

In 2015 there were 20 active Master Gardener Volunteers (up from 13 last year). 762 volunteer hours were spent by the MGVs; at \$23.07 per hour that's \$17, 594.80

(IndependentSector.org)

The MGVs served the residents of Chenango County in several different ways:

Helpline: the MGVs answered well over 100 inquiries about your gardens, pests and diseases and plant identification. The hot topics this year were insect i.d. and tomato blight.

Outreach: the MGVs spread the word about horticulture at functions such as the Oxford FFA's Agricultural Fair and at Afton Farm Days and the Chenango County Fair.

Volunteering in Your Community: the MGV's spent hundreds of hours in your towns, at your churches and other community sites beautifying spaces, maintaining pollinator spaces and spreading the joys of horticulture to many.

Honing Their Skills: part of being of service to others is keeping fresh in the latest research. MGVs spend many hours each year keeping their knowledge fresh and bringing that knowledge directly to you!

(above) Chenango County Fair: this is the MGV's big opportunity to share what they know and they know plenty! Each year a topic is chosen and a 20' educational display is created from scratch in Exhibition Hall. 2015's topic was late season color in the garden.

Master Food Preservers

Master Food Preserver Volunteers continued teaching valuable classes this year. Volunteers have continued to teach valuable classes which have been attended by approximately 272 people since 2009. In 2015, 34 hours of classes were taught by 7 different volunteers, with a total of 64 participants and a total of 56 volunteer hours documented. Volunteers taught classes on topics including: Food Preservation Safety, Pressure Canning Meats, Pressure Canning Vegetables, Jams & Jellies, Freezing & Dehydrating, and Hot Water Bath Salsa & Tomatoes.

Master Clothing and TextileVolunteers

The 4-H Master Clothing and Textile Volunteers assisted with sewing camp, Sewing Spectatular and judging at the County Fair. This year 9 youth participated in sewing camp and the sewing spectatular by sewing dresses, pajama pants, and jackets. Volunteers assisted youth ages 6 through 15 years old and awarded multiple sewing scholarships to encourage youth to continue their interst in sewing. This year 9 volunteers logged over 30 hours in volunteer work each. This time totals 270 hours of volunteer work with our Chenango County 4-H youth.

Community Gardens 2009-2015

In 1996 Stacie Edick and several other Chenango County residents started the Norwich Community Garden on City of Norwich property on Hale Street next to the Chenango River. After several years Rebecca Hargrave took over management of the Community Garden as part of her Horticulture Educator position. In 2008 Rebecca Hargrave and Kim Eaton identified a grant opportunity and asked Stacie Edick for assistance in writing the proposal. In 2009 CCE Chenango received funding for the Community Gardens Project through the NYS Department of Health's Healthy Eating Active Living by Design (HEALD) program. This funding has come to a close. Stacie was hired in the September of 2009. The Norwich Community Garden was expanded to 40 plots and since then other Community Gardens were created:

Oxford Community Garden – 2010 - was used for one year but then flooded out and not rebuilt due to low interest in plot rental, although there was terrific community support in getting it started.

Bainbridge Community Garden – 2011 - behind Maple Manor and CHIP housing – started with 6 raised beds, then 12 more added in 2012. Created in partnership with the Jericho Garden Club on Village property. Jericho Garden Club maintains it. Contact Joanne Darling at 607-967-835.

Cook Park Community Garden in Greene – 2013 - for seasonal residents of the campground – 6 raised beds. Built with assistance from the Headwaters Youth Conservation Corps (HYCC).

Afton Community Garden – 2013 - 6 raised beds behind the Community Center/Library – maintained by the Afton Vision Group. Contact Alan Steinberg at 607-624-5124

Friends of Rogers Environmental Education Center – 2014 - 6 raised beds, (9 families ~ 27 people) built by HYCC, maintained by Rogers staff. Contact 607-674-4733

McDonough – 2014 - 4 raised beds, (food pantry) CG supplied limber, Kelley Grange #1301 built and maintains garden. Contact Steve Ellsworth at 607-647-9321

Earth Box container gardens were provided to approximately 80 families including Head Start parents and people who participated in Grow Cook Eat program in 2012-15.

1,865+ pounds of produce have been donated to food pantries and soup kitchens since 2012.

Gardening Classes have been taught over the years reaching approximately 467 people since September of 2009.

Food Preservation and coordination of the Master Food Preservers has been funded by the CG funds since 2009. Classes have been attended by approximately 272 people since 2009.

4-H Volunteers Are Our Greatest Resource

Chenango County is blessed with numerous natural resources. One of the greatest resources is the group of volunteers that work with our 4-H youth. These volunteers are our neighbors, friends and children's teachers. During the 2013-2014 program year Chenango County 4-H had 96 enrolled volunteers. These volunteers assisted youth in numerous projects and activities including: sewing, cooking, leather craft, animals, health, gardening, community service, conservation, woodworking, public presentations, and livestock shows.

It is impossible to quantitatively measure the impact that these volunteers have on our youth. Research shows that our volunteers impact 4-H youth in the following ways:

- 4-H volunteers serve as positive role models for youth.
- 4-H volunteers are able to support, encourage and "be there" for youth.
- 4-H volunteers help youth develop community connections and become active citizens in their communities.
- 4-H volunteers help youth learn new content and master new topics.

Thank you to all of our Club Leaders, Project Leaders and County-Wide Volunteers!

- Average volunteer spends 122 hrs./year with 4-H (2012, Corporation for National and Community Service)
- Average hourly wage rate for volunteers---\$23.07 (2014, Independent Sector)
- # 122 hrs. X \$23.07/hr. X 96 volunteers

\$270,195.00 worth of Volunteer Time donated to Chenango County 4-H

20 youth participated in winter horse bowl and dairy bowl practices, hands-on learning the science and management practices of both species. 5 youth earned places on the regional teams that competed in the state 4-H contests!

17 youth participated in our 1st annual 4-H Super Science Fair, held at SUNY Morrisville's Norwich Campus. Youth chose a science topic, researched, conducted and documented experimentation, and presented their findings to a 3-person judging panel. Top "scientists" were awarded \$1,000 in scholarships from the program's sponsor, Time Warner Cable and Connect A Million Minds Program.

4-H was a 2015 recipient of a \$23,725.06 Roger Follett Foundation Grant to renovate both Case Building & Chapman Hall, including roofing and kitchen work.

2,049 youth involved in STEM 523 youth involved in Civic Engagement

487 youth involved in Healthy Living

22 Chenango County 4-H'ers participated in the annual Farmer's Museum 4-H Junior Livestock Show.

These youth earned many awards, including Master Showman, Champion of Breeds, Best Bred and Owned, Best Junior Doe in Show, as well as the highly coveted Farmer's Museum Dairy Goat Cup for Best in Show!

The Chenango County 4-H After School Program continues to partner at 4 different sites to bring STEM, Healthy Living, & Citizenship activities to 315 youth. Funding from Stewart's Shops & the Chenango County Youth Philanthropy Council, in the amount of \$2,000 helped defray the costs of materials. During the school day, 685 youth participated in 4-H.

4-H at the Chenango County Fair:

*112 4-H Exhibitors *905 Total Entries *31 Pet Projects

*492 Domestic Projects *40 Cavy/Rabbits *36 Beef *13 Horses

*106 Dairv *96 Dairy Goats *32 Meat Goats *33 Sheep

The 4-H Sewing Spectacular highlighted all of the 4-H Sewing **Camp** projects made by members. Included was judging, a fashion show and sewing collection show.

Grow Cook Eat

The Grow Cook Eat program is in it's fourth year. 19 participants enrolled this year and have set personal goals related to gardening, fitness and healthy eating. They have been enjoying classes in gardening, cooking and nutrition, and food preservation. They have been offered 9 gardening classes including Planning Your Garden, Seed Starting, Feeding Your Veges, Container Gardening, Weed Control, Insect ID and Control, Season Extension, Composting, and Sprouts and Microgreens. They took 6 cooking and nutrition classes offered through the Eat Smart New York program. They have also been offered 6 food preservation classes including: Food Preservation Safety, Jams and Jellies, Salsa and Tomatoes, Pressure Canning Vegetables, Pressure Canning Meats and Freezing and Dehydrating. Most of these classes were open to the public as well. Participants have also enjoyed group hikes, classes at the YMCA and other physical fitness activities. 3 participants took advantage of plots at Community

Gardens and 8 took home container gardens. Participants have also given back by volunteering numerous hours throughout the community. 2015 has been another wonderful year for Grow Cook Eat and we look forward to continuing this well-rounded educational experience for 2016 and 2017 with funding provided by the Chenango United Way.

Grow Cook Serve

2015 was the inaugural year for this program which endeavors to increase the capacity of food pantries and soup kitchens by training volunteers to staff them and by growing produce to donate to food pantries and soup kitchens. 10 Participant Volunteers have offered more than 170 hours of service by either volunteering directly at food pantries and soup kitchens or by growing produce or by processing produce for freezing under the 20C Food Processing License obtained by the Grow Cook Serve program in September. Over 830 pounds of fresh

For Our Community

and frozen produce have been donated to food pantries and soup kitchens including 90 pounds of apples gleaned from 2 trees, 95 pounds of squash gleaned from Heller's CSA Farm and 242 pounds of produce gleaned from the Oxford Farmer's Market and home gardens. We hope to secure funding for this program again in 2016 and expand the number of Participant Volunteers and hours and pounds of produce significantly.

Chenango County SNAP-Ed Eat Smart New York

Beginning in February, with more than half the program year over, and the State pushing Regional Lead Managers to get things rolling, the Chenango County SNAP-Ed team started making connections with new agency partners in both Cortland and Madison Counties. The nutrition program data that follows is a summary of both Direct and Indirect activities that have taken place for the 2015 fiscal program year in Chenango County. We anticipate as we roll into our second year of the five year grant, the ESNY Team will be adding to the list of program sites, including more Schools, Agency Partners and Grocery Stores.

The Grocery Store Tours were presented through Cooking Matters at the Store. It is an interactive grocery store tour that teaches low-income families to shop for healthy, affordable food. Participants learn to find whole grains, buy fruits and vegetables on a tight budget, compare unit prices, and read food labels. Cooking Matters at the Store includes two versions: one for adults and one tailored to WIC parents. If resources are available to increase participation and learning on the tour community partners may be able to provide transportation and money to purchase \$10 gift cards for the \$10 Challenge.
